Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

PROJECTS

Online Result System   Dec 2022 - Mar 2023
Web Development Project   *Java, MYSQL*
- The Online result system project developed with Java that enables students to access their exam grades
- It features a user-friendly dashboard for viewing grades and tools for administrators to manage results
- These tools allow for quick uploads, instant updates, and detailed performance reports.

Assistant Chatbot   Feb 2024 - Apr 2024
Web Chat Assist   *PHP, Gemini API*
- The chatbot project using PHP is a web-based application that allows users to interact with a chatbot.
- The chatbot is designed to respond to user queries and provide relevant information or assistance.
- It provides a simple and efficient way for users to get information or perform tasks through conversational interaction.

E-Auction   Aug 2024 - Nov 2024
Web Development Project   *ASP.Net, C#, MS SQL*
- The E-Auction System was developed to facilitate real-time bidding for buyers and sellers in a digital marketplace.
- Secure user authentication, item listing with auction details, real-time bidding with live updates.
- Displays bid history, and an admin panel for managing users and auctions.

EXTRACURRICULAR

- Coordinated Aavishkar- National Level Technical Event, showcasing leadership and organizational skills
- Certifications Bootstrap Certification – LanguageHubWeb IT Solutions
- Python for Data Science – NPTEL
